

Valve boxes RACKS

The Rain valve box rack allows the installer to configure the valve box contents conveniently at the workbench. It optimizes the space inside the valve box. The rack is also designed for the installation of the manifold system on the walls of technical rooms: it is equipped with 4 holes to fix the manifold to the wall.

Codice	Name	Model
125.8000500	GRID 113	GRID 113
125.8000600	GRID 115	GRID 115
210.9901113	HOOK 1"	HOOK 1"
210.9901112	HOOK 1"1/2	HOOK 1"1/2
